Flash, founder of Redspher

215.500.000€
Turnover in 2018

Over 477 500
Deliveries en 2018

European leader for on demand delivery, Flash digitized his business model quite early, gaining a competitive advantage. Most of its customers are big companies from the automotive and industry business

Flash is historically active in two verticals

Automotive

Significant track-record in the Automotive sector, addressing most leading manufacturers
DIN ISO certification
Online track & trace and booking
Local contacts near production sites in Europe
Competency centers

Industry

Main industrial sectors:
Aviation & Aeronautic, Heavy Industry, Agricultural Machine
Specific operating procedures
Night & weekend customer services
**Strategic warehouse management**
Specific cross dock network

Schwerdtfeger, newest member

Schwerdtfeger is competitor from Flash which joined the group to leverage the strong complementaries. Schwerdtfeger has a regional customer base while Flash mostly deals with international companies.

Redspher had a lot to offer regarding corporate services. Schwerdtfeger gained modern IT tools to support their international growth

Easy4Pro Introduction Video

Easy2Go

Last mile delivery is booming with the rapid growth of e-commerce. More than 2 Million goods ordered on Amazon during 2017 Black Friday in France. **Easy2Go offers solutions for companies looking to quickly expand their network of delivery**. Easy2Go builds a fully operational system with trained drivers and tracking for the vehicles to give customers full control over the delivery in e-commerce.

Urgent logistics needs can be hurdles for small business and individuals. Thanks to a clear customer portal, Easy2Go makes premium delivery accessible for everyone.

Up to **50.000** *parcels delivered daily*

Upela

Upela

Roberts.eu

As a freight mover, Roberts.eu targets customers with a high price elasticity, giving them access to a large fleet of vehicles.

Customer → www.Roberts.eu with "live" available vehicles → Quote / Request → Traffic Control

Genius Academy

Redspher and its members pride themselves to offer solution tailored to the needs of its customer. This requires **agility to adapt to new standards and procedures.**

Genius Academy, as an online training center has a major role to play in the platform, providing trainings for many coworkers and partners. **Evolving tools and changing needs can be swiftly implemented thanks to Genius Academy.**

GeniusAcademy

Around **15000 courses** completed in 2018

28 new courses released in 2018
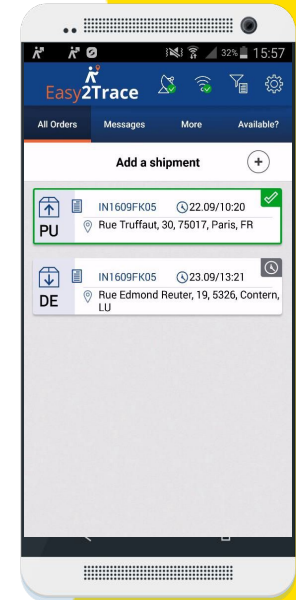

Courses available in

Easy2Trace

As an **enabler, Easy2Trace connects many different actors of the platform**. A carrier using Easy2Trace, can deliver for Flash, Easy2Go and Easy4pro.

Data is crucial, and Easy2trace is key to acquire reliable and real-time date about transports. Easy to setup and simple to use, Easy2Trace is a valuable asset to all members of the platform.

Yoctu

Yoctu is the backbone of Redspher's IT system, providing basic tools to build apps: payment, login, translation, notifications etc.

For companies and startups joining redspher, Yoctu allows them to kick start their app development. Use the tools offered by Yoctu to focus on the added value.

Rubiwin

More than 90% of transport companies have less than 5 vehicles . The size of these companies brings other advantages: better control of the quality, more flexibility etc.

Rubiwin is here to combine the best of both worlds. Offering small companies deals negotiated for larger players using our network.
